Financial Affaira The interest felt in the election yesterday had the effect of rendering financial matter, decidedly dull, and few transactions of any consequence occurred in Third-street. Money was in moderate demand and the market easy at 10@12 per cent, for first-class Paper. The Discount-houses had fewer offerings of Paper than they had had on any previous day for several weeks.

An excellent counterfeit five-dollar note on the Western Bank of Philadelphia, was on the Western Bank of Philadelphin, was detected by the Bankers of Third-street yearerday. It is a fac-simile of the genuine and liable to deceive any one. The cashier's name, however, is engraved, and by this it may be distinguished from the genuine bill. The New York news by telegraph had an unfavorable effect upon Fiour here, but rates were unchanged, with a dull market. The sales were 1,525 br/s. at \$5. The New York Import entries for the past week are considerably ahead of last year—\$4,033,239 (including the dry-goods table in our last paper) to \$2,619,000. This renders it probable that the total Custom-house return for October will abow a moderate increase on last senson, though the sum for the ten months of the calendar year is still behind 1859. The Export clearances of domestic Produce continue heavy, \$2,108,781 for the week, against \$1,305,090 same week last season, placing the total for October ahead of any previous mouth of the past nine years.
